

## The Importance of Reading

Year 6

## High-quality books

We will ensure that your child has a reading book which is suitably pitched to build both confidence as a reader and their fluency. Books may also be chosen to widen their knowledge about a topic or area of study.

Within our English lessons, our scheme provides lessons based on high quality texts with a rich vocabulary.

Your child will also visit our school library and read a free-choice library book for enjoyment. Allowing children free choice helps them to develop their identities as a reader as they learn which books/authors they like and which they do not.

## Supporting your child

- Continue to read with your child and question them about their reading. Ensure your child reads for at least 20 mins a day.
- Log your child's reading in their Reading Record so that they can access school rewards. Check they are logging their own independent reading
- Make reading time pleasurable by providing a quiet, comfortable space with minimal distractions
- Ask your child simple questions as they read to check their understanding
- Use positive language and praise their reading efforts
- Read to your child as part of your morning or evening routine. This builds vocabulary, feeds imagination and can even improve sleep patterns
- Ask them about books/ stories they are reading at school (your child's class books are shared on the half termly overviews)
- Model by reading your own books/texts as a household. Have reading time

Reading is the key to success...

## School Routines

- Your child will be reading more substantial texts and will generally chose their books independently or with some adult guidance. They must complete a book review before changing their book.
- Reading records are checked regularly during the week to ensure home reading.
- Children will read regularly during the work to an adult with rich questioning about the text.
- Book reviews will earn Bronze, Silver and Gold

## Parents in Partnership

It is crucial for both school and parents to actively teach their child to read. We need you to create a home environment where reading is encouraged and seen as a pleasurable experience.

**Spending just 10 minutes reading with your child every day will be invaluable in developing their ability and desire to read and learn.**

The importance of reading for children cannot be underestimated. Reading for pleasure can benefit a child's education, social and cognitive development, their wellbeing, and their mental health.

Engaging with books allows us to be transported to other places and worlds. We can become immersed in the lives of fictional characters or learn more about the world around us.

Reading is a key life skill. It is placed at the heart of our curriculum; we have carefully selected texts which will ignite children's imagination, inspire their curiosity and provide a window to the world.

**It is commonly said that a child's future academic success and job prospects are directly related to their reading proficiency.**
